**Notes:**

The Richthofen Class is a real military ship. After the raid of an unknown species along the rimward border, Starfleet needed a fast and strong patrol ship to stop such attacks. With the commissioning of the first twenty Richthofen Patrol Class Cruiser, the raids ended and never started again. After this successful operation the Richthofen Class was on duty along the whole federation border. Of the 124 constructed ships 17 were lost, 53 were destroyed (12 by the Klingons, 23 by the Romulans, 6 by the Orions, 4 by unknown species, 8 by an explosion of a space dock), 34 were scrapped (12 of them had construction failures), 3 were used as training vessels, 4 were sold. Today 11 ships are still on duty along the neutral zone.
